PROJECT

Title:

---

---

Objective of the proposal:

---

---

---

---

---

---

Category in which it will participate:

---

Scope of application (diagnosis, pharmaceutical, foods, etc.):

---

---

Clinical background or technical problems that justifies the development of the innovation:

Describe the originality of the technological development, making emphasis in the differences with previously described innovations in the same technical field.

The experimental results that support the innovation:

Possible impacts of the project (social, economic, environmental, scientific, etc)
